ONE-PIECE DRESS – VARIATIONS – SKIRT

Decorations can be knit into this skirt. The simplest embellishment is to work stripes into the skirt, in either plain or a frilly decorated yarn. A lace skirt also works well. If using a repeated lace or color pattern, keep the skirt width between 100-122 sts total for a pullover, or 100-132 for the button-back version, always decreasing the skirt to 61 sts (66 for button-back version-described later in the pattern).

A regular stockinette bottom edge of the skirt will tend to roll up, and it seems no amount of blocking will completely stop this. Below are some suggestions for alternate hemlines which will eliminate or minimize the roll.

Let it Roll:

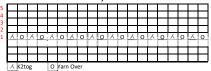

This is the hem described in the original pattern. A row of K2tog YO will allow the bottom rows to roll, but stop the roll from going further up the skirt. Begin counting rows for length with the K2tog YO row.

Picot Hemmed Edge:

Worked as above, but the bottom of the skirt is folded up at the K2tog YO row and sew as a hem.

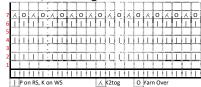

Garter Stitch Edge:

This pairs nicely with 5 rows of garter stitch at the waist (just after the decrease row).

K 1 row, then begin with next row as 'row 1' (RS) of the pattern.

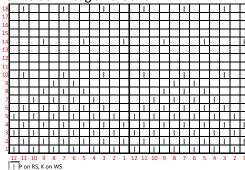

Diamond Moss Stitch:

This works by tapering the end of the moss stitch up into the skirt. The remainder of the skirt or dress can be worked in plain stockinnette stitch (as shown in the photo) or with P1 stitches every 4th row (as shown in chart). Cast on 120 (or if you want, 132 for the button-back version) stitches. Decrease as follows:

120 to 61: K2tog 29 times, K1, then repeat.

120 to 61: (K2tog 4x, K1) until 4 left; K2tog 2x

132 to 66: K2tog all around
